D. José Luis Bruna i Brotons
President of Spanish Fishing
and Casting Federation

Dear athletes, captains and delegates:

As President of the Spanish Fishing and Casting Federation, I have the honour to greet and welcome the athletes, captains and delegates, as well as the delegates of the Fips mer, who will meet in Valencia, between 28th October and 2nd November, to celebrate the 1st World Cup in the speciality of Sea Kayak Fishing.

The city of Valencia and its dynamic Provincial Council have been distinguished by their support for sport, as an activity that generates values such as effort, self-discipline, respect and its integrating social capacity, to which specific values such as respect for aquatic ecosystems and the natural environment can be added in sport fishing, as well as its great social transversality. This tradition of promoting sport characterises Valencia. For this reason, both the Spanish Fishing and Casting Federation and the Fishing Federation of the Valencian Community are proud and satisfied that this world competition can be held in the marvellous facilities of the Real Club Náutico de Valencia and the Marina de Valencia.

The Valencian Community and its entire coastline is a tourist attraction of the first order. During these days you will be able to experience its climate, its magnificent beaches, its historic monuments and its excellent and varied gastronomy. You will see for yourselves its welcome and hospitality, every time the world of competition fishing comes knocking on its doors.

I would like to publicly thank the Fips mer for granting the organisation of this 1st World Cup for Spain, without forgetting the recognition and support that the Consejo Superior del Deporte has always given to our sport.

But I would not like to end these lines of greeting and welcome without expressing my satisfaction, my recognition and sincere thanks to the Fishing Federation of the Valencian Community, for its dynamism, its good management and brilliant promotion of the sport of fishing, which makes it one of the great pillars of the Spanish Federation of Fishing and Casting (FEPC). From here I would like to thank all its organisation, all its efficient and enthusiastic collaborators. I am sure that this World Cup will shine with its own light.

Welcome and may the best man win!

D. Josep Miquel Moya

**General Director of Sports Generalitat
Valenciana**

I would like to thank the organisers of the 1st Sea Kayak Fishing World Cup for giving me the opportunity to welcome all the participating delegations and to wish them, on behalf of the Generalitat Valenciana, the best of luck, always necessary, in the competition, as well as to thank the organising and convening bodies for choosing Gandía: International Federation of Sea Fishing, Spanish Federation of Fishing and Casting, Fishing Federation of the Valencian Community and the Real Club Náutico de Valencia. We are convinced that it has been an absolute success, for many reasons.

From a strictly sporting point of view, the Fishing Federation of the Community of Valencia has the backing of experience, the excellent organisation of previous championships and the full satisfaction of the participants.

This satisfaction is also justified by other equally important aspects, such as the beauty of the surroundings and the friendliness and good treatment that we Valencians know how to give. Because, indeed, the Valencian Community is the "Comunitat de l'Esport" not only because of the priority institutional support it receives, but also because of other essential elements that make it an excellent place to practice sport (the good climate, the environmental quality and attractiveness of its natural spaces, its facilities... and the friendly, fun and welcoming nature of its inhabitants).

I hope, therefore, that you will be able to enjoy an extraordinary sporting event, but also that you will find enough time to discover our heritage, our culture and our gastronomy.

Josep Miquel Moya

General Director of Sports Generalitat Valenciana

EXIT POINTS:

ZONE 1

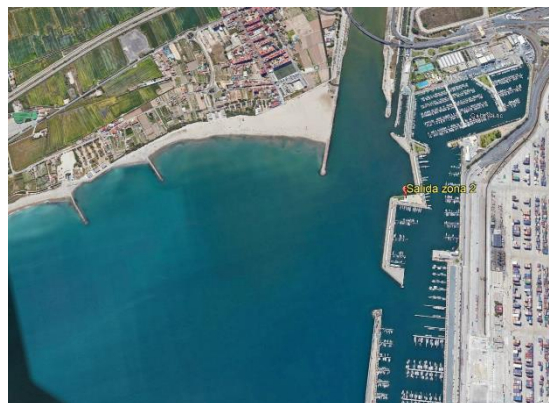

MARINA DE VALENCIA

Ramp Kayak fishing Valencia located at La Marina de Valencia, Darsena Sur.

ZONE 2

ROYAL NAUTICAL CLUB OF VALENCIA

There are two stages, one oriented to the north of the port of Valencia and the other to the south.

The latest FIPS-M rules can be downloaded from the FIPS-M website: www.fips-m.org (under: **Bylaws-rules).**

Rods - Baits.

Only 1 rod with reel may be used when fishing. One spare rod mounted without bass is allowed. It is possible to have other unmounted spare rods.

The baits will be natural, provided by the organisation, if possible, four boxes of Korean and 500 gr. of prawns, and artificial baits provided by the angler may also be used.

SCORING SYSTEM

To help preserve the survival of the fish caught, the classification will be based solely on the length of the fish.

The fish are measured in cm, photographed on the measuring rod (controlled by the jury) and released as soon as possible. In order to have the clearest possible picture, the batten must be fixed in the kayak. At the end of each round, the competitors must send the photos to the jury so that they can be transferred to the computer. After viewing the photos, the jury will validate the measurements and establish the ranking.

The delicate capture of a fish can only be done with the help of a dip net, which must not cause injury to the fish.

The minimum size for all fish is 18 cm. Ranking by length (FIPS-M Rules)

- For each legal size fish (≥ 18 cm) 10 Points.
- For every centimetre (1 cm) 1 Point.

Every centimetre started is rounded up.

- For each "Oversize" fish (= larger than 50 cm) a bonus of 50 points is awarded in addition to the points normally awarded.
- In the event of a tie, the angler who has caught the most fish takes first place.
- And then the angler with the longest fish will be considered.
